# Gun Deaths, 1992-2013

The Left's plan is to demonize 'the gun', while completely absolving the perpetrator of the crime and all responsibility by pushing the lie that "the gun did it". Guns are tools, like cars, hammers, and baseball bats, etc., that can be used or misused... Guns don't kill people, cars don't kill people, hammers don't kill people—PEOPLE KILL PEOPLE!

**Ban otherwise Law-Abiding Citizens from owning guns, and then only Criminals, Predators, and Tyrants will have all the guns to prey on a defenseless population (of former citizens) at will, BECAUSE CRIMINALS ALREADY DO NOT OBEY LAWS!**

**If the very definition of a 'Criminal' is one who does not obey the law, then what could possibly make anyone think that by making more laws that strip away the rights of the Law-Abiding, will make any real impact on Crime??... Like during Alcohol Prohibition in the 1920s, It will only INCREASE CRIMES on Defenseless Citizens!**

# GUNS DON'T MAKE YOU A KILLER

Killing makes you a killer. You can kill someone with a bat or a car, but no one is trying to ban you from driving to the ball game.

# SLAVES DON'T.

It is also a matter of HISTORICAL FACT that once the Democrat Party had taken back control over the Post-Reconstruction South after the Civil War, the first thing they did was to enact Gun-Control Laws to strip the newly freed slaves in their jurisdictions of their rights and abilities to defend themselves and their families from the Marauding Bands of the Democrat Party's own Predatory Para-Military Wing, the Klu Klux Klan.

## WWII Survivor Warns of SOCIALISM and GUNCONTROL

<https://www.youtube.com/embed/JBS5i0k7Mh0>

THIS IS FIRST HAND HISTORY! - Kitty Werthmann, an Austrian World War II survivor, gives her account of Hitler's takeover of Austria. The similarities to today's left and their "progressive agenda", are staggering! We should take heed of her warnings. We are seeing the same thing that Hitler did prior to and during WWII today, only at a slower pace. More and more of our freedoms are being taken away, and it's happening over generations so that each new generation grows up with less and less freedom. This is a MUST WATCH!

<https://www.goodreads.com/book/show/31250418-the-war-on-guns>

When it comes to the gun control debate, there are two kinds of data: data that's accurate, and data that left-wing billionaires, liberal politicians, and media want you to believe is accurate. In *The War on Guns: Arming Yourself Against Gun Control Lies* (Regnery Publishing; \$27.99; 978-1621575801), nationally-renowned economist John R. Lott, Jr. turns a skeptical eye to well-funded anti-gun studies and stories that perpetuate false statistics to frighten Americans into giving up their guns.

In this, his latest and most important book, *The War on Guns*, Lott offers the most thorough debunking yet of the so-called “facts,” “data,” and “arguments” of anti-gun advocates, exposing how they have repeatedly twisted or ignored the real evidence, the evidence that of course refutes them on every point.

#### **In *The War on Guns*, you'll learn:**

- Why gun licenses and background checks do not stop crime
- How “gun-free” zones actually attract mass shooters
- Why Stand Your Ground laws are some of the best crime deterrents we have
- Women now hold over a quarter of concealed handgun permits
- How big-money liberal foundations and the federal government are pouring hundreds of millions of dollars into “public health” studies, the sole purpose of which is to manufacture false data against guns
- How media bias and ignorance skew the gun debate—and why it will get worse
- From 1950-2010, not a single mass public shooting occurred in an area where general civilians are allowed to carry guns

[https://www.goodreads.com/book/show/299835.More\\_Guns\\_Less\\_Crime](https://www.goodreads.com/book/show/299835.More_Guns_Less_Crime)

On its initial publication in 1998, John R. Lott's *More Guns, Less Crime* drew both lavish praise and heated criticism. More than a decade later, it continues to play a key role in ongoing arguments over gun-control laws: despite all the attacks by gun-control advocates, no one has ever been able to refute Lott's simple, startling conclusion that more guns mean less crime. Relying on the most rigorously comprehensive data analysis ever conducted on crime statistics and right-to-carry laws, the book directly challenges common perceptions about the relationship of guns, crime, and violence. For this third edition, Lott draws on an additional ten years of data—including provocative analysis of the effects of gun bans in Chicago and Washington, D.C.—that brings the book fully up to date and further bolsters its central contention.
